So let me ask you...how many weeks is that scheduling process? There's the pre-op visits, the insurance nightmare, getting on the surgery schedule, then the Doctor has an emergency...your tummy tuck gets bumped for some multi-car pile-up involving some hoodlum on Harley-Davidson. I don't think so!

Ah, I almost forgot...hot off the operating table...**variety kits** for multiple procedures...tonsillectomy, meniscus repair, and of course, our most popular...**hemorrhoidectomy**. You might want to grab a friend or neighbor for assistance on that one.
